EXPERIENCE

Sleighter Engineering, is an experienced provider of professional services to public agencies. We have completed more than \$20,000,000 in hundreds of commissions in recent years.

HUD gave Sleighter Engineering a perfect score of 100% for several major projects, remarking that it was the first time a site inspection met 100% compliance on its first inspection.

Put our experience to work for you. In addition to Construction Program Management Services, we offer complete design, engineering, construction, environmental and design-build services.

All our services are tailored to your specific need and budget.

Contact us for further detailed information on any of these services.

We offer a no-obligation conference and visit to your facilities to give you a first opinion.
